tsigeniswoodcraft PROFILE

Tsigenis Commercial & Industrial S.A. is a customer-oriented company, which has been active in the wood processing industry since 1998. It was founded by Kostas Tsigenis, a skilled carpenter with knowledge and experience gained from years of working at manufacturing units in the domain of furniture. His vision was to take the potential of wood as a material to the next level, and create a company to suit the needs of the most demanding customers.

Along with its team, specialised in successfully combining wood with a variety of materials (eg. iron, Corian®, glass, light, etc.), Tsigenis Commercial & Industrial S.A. ensures the delivery of excellent quality and enduring constructions.

OUR PHILOSOPHY

TECHNICAL EXPERTISE

- excellent knowledge of materials
- certified quality products
- state-of-the-art techniques

Our goal is to keep up with the ever-evolving market demands and adapt to our customers' increasing expectations.

INNOVATION

By utilising materials such as wood, iron, and versatile surface material (i.e. Corian), we enable the realisation of large constructions that require the use of multiple materials.
